OPERATIONAL BASES & STRATEGIC MARITIME FOOTPRINT

Headquarters Office:
Shop 04, Prowa International Shopping Complex, Opp. Kirikiri Police Station, Kirikiri Town, Lagos, Nigeria.

Site & Marine Field Base:
Defense Jetty, Marina, Lagos State, Nigeria (Direct quayside dispatch & subsea operations).

Supported Coastal Hubs:
Lagos Port Complex (Apapa), Tin Can Island, Kirikiri Lighter Terminal, Onne Port, Warri, Calabar & Offshore Terminals.

1. EXECUTIVE OVERVIEW

ASANTI SHORES LIMITED is an incorporated Nigerian maritime support, vessel husbanding, and marine engineering contractor (RC: 2018901) headquartered in Kirikiri Town, Lagos, with an established operational field jetty base at Defense Jetty, Marina, Lagos.

The enterprise was established to bridge the gap between rigorous international maritime standards and local operating realities across Nigerian territorial waters. Recognizing that unnecessary port delays and demurrage incur severe commercial costs, Asanti Shores provides integrated solutions encompassing technical ship management, certified STCW crewing, ship chandling, high-grade bunkering coordination, commercial diving, salvage operations, and marine equipment provisioning.
With disciplined execution, proactive port authority liaison, and 24/7 responsiveness, we ensure vessels calling Nigerian ports and offshore energy installations complete their turnarounds safely, on budget, and on schedule.

2. VISION & MISSION STATEMENTS

OUR MISSION

To deliver dependable, safety-compliant, and cost-effective maritime services, vessel husbanding, and logistics solutions for shipping lines, vessel owners, and offshore energy operators across Nigerian waters, safeguarding vessel assets and turnaround timelines through proactive coordination.

OUR VISION

To be recognised as one of Nigeria's most trusted and responsive maritime support contractors, respected by international ship owners, charterers, and oil & gas procurement teams for operational transparency, uncompromising safety standards, and local execution excellence.

3. CORE VALUES & OPERATIONAL ETHOS

- **Operational Reliability:**
  Disciplined execution across all Nigerian ports, ensuring on-time vessel provisioning, prompt turnaround, and clear real-time status reporting.
- **Safety & Statutory Integrity:**
  Uncompromising adherence to NIMASA regulations, the Coastal and Inland Shipping (Cabotage) Act, and IMO ISM/ISPS frameworks.
- **Client-Centric Responsiveness:**
  Direct operational point-of-contact with 24/7 availability for vessel masters, fleet managers, and procurement officers navigating Nigerian waters.
- **Commercial Transparency:**
  Honest, itemized pricing without hidden surcharges, backed by transparent delivery notes, quality certificates, and survey protocols.

KEY CLIENT SECTORS WE SERVE

• Commercial Shipping Companies & Liners • Offshore Oil & Gas Exploration / Production Operators
• Marine Contractors & Civil Dredgers • Port & Terminal Logistics Operators

4. CORE MARITIME SERVICE DIVISIONS

01 Ship & Crew Management

Comprehensive vessel husbanding and seafaring crew management in Nigerian ports. Provision of STCW 2010 certified officers and ratings, immigration sign-on/off, NIMASA cabotage documentation, port clearance supervision, and drydock repair support.

Capabilities: STCW compliance • 24/7 port agency • Planned Maintenance Systems (PMS) • Local cabotage guidance

02 Ship Chandling & Vessel Provisions

Direct quayside and anchorage delivery of fresh, chilled, and frozen food provisions, bonded stores, cabin supplies, deck hardware, and engine room consumables conforming to ISSA and IMPA international standards.

Capabilities: Fresh/dry provisions • Bonded stores • Cabin supplies • Marine lubricants • Deck & engine spares

03 Marine Equipment Sales & Supply

Procurement and supply of certified maritime hardware: SOLAS-approved life rafts, lifejackets, immersion suits, mooring systems, anchor chains, pumps, valves, industrial hoses, non-destructive testing tools, and commercial diving spreads.

Capabilities: SOLAS/MED certified lifesaving gear • Mooring wire ropes • High-pressure hoses • Marine valves & pumps

04 Bunker Supply & Fresh Potable Water

Safe, compliant bunkering coordination delivering ISO 8217 compliant Marine Gas Oil (MGO), Very Low Sulfur Fuel Oil (VLSFO - 0.5% max sulfur), and WHO-standard potable water via dedicated fresh water barges to berth or outer anchorage.

Capabilities: ISO 8217 compliant MGO/VLSFO • Sealed Marpol samples • WHO potable water • NMDPRA licensed supply

05 Tugboats & Barges Hire

Commercial charter of harbor and ocean tugboats (up to 4,000+ BHP), flat-top deck cargo barges (1,000 – 5,000 DWT), ramp barges for RoRo transport, spud barges for dredging/piling, and heavy crane barge platforms.

Capabilities: ASD/Twin Screw tugs • Flat-top deck barges • Ramp barges • Spud barges • Anchor handling towage

5. SUBSEA SERVICES, SALVAGE & CRAFT OVERHAUL

06 Underwater Services & Commercial Diving

Class-approved In-Water Surveys (IWS/UWILD) in lieu of drydocking with live CCTV video recording. Hydraulic rotary brush hull cleaning, propeller super-polishing to Rupert Scale A, sea chest blanking, anode renewal, underwater oxy-arc cutting, and wet welding.

Capabilities: IMCA safety guidance • Surface-supplied diving spreads • Live video feeds • NDT thickness measurements

07 Service Boats Hire & Fast Craft Overhaul

High-speed crew transfer vessels (FSIV/CTV), line-handling boats, and maritime security escort craft. Full structural refurbishment, fiberglass/aluminum repair, and mechanical engine overhauls for commercial passenger ferries and waterbuses at Marina boatyard.

Capabilities: High-speed crew boats • Passenger ferry repairs • Security escorts • 24/7 coastal dispatch

08 Marine Salvage & Wreck Removal Operations

Wreck removal, vessel scrapping, and emergency salvage in Nigerian commercial channels. Subsea cutting of derelict steel structures, dewatering and patching of submerged hulls, crane barge lifting, and environmental spill prevention.

Capabilities: Channel clearance • Heavy crane barge lifts • Submersible dewatering • Subsea steel scrapping

6. VERIFIED FIELD DELIVERIES & CASE CONTRACTS

Wreck Removal & Channel Clearing	**Lagos Coastal Waterways**	Controlled subsea cutting, crane barge lift, and derelict steel disposal.
In-Water Survey & Hull Cleaning	**Defense Jetty, Marina**	Class IWS CCTV inspection, propeller polish, and sea chest blanking.
Harbor Towage & Cargo Barging	**Lagos to Kirikiri Terminal**	Towage of 2,500 DWT deck cargo barge with industrial scrap metal.
Passenger Ferry Refurbishment	**Marina Repair Berth**	Complete hull structural plate renewal, engine tuning, and safety refit.
Subsea Piling Oxy-Arc Cutting	**Coastal Fairway Approach**	Diver-assisted underwater burning of submerged structural steel piles.

7. HEALTH, SAFETY & ENVIRONMENT (HSE) POLICY

ASANTI SHORES LIMITED conducts all maritime activities under a strict Zero Harm mandate. We recognize that offshore and harbor operations carry intrinsic hazards, and we eliminate risks through systematic pre-job safety meetings, task risk assessments (TRA), and uncompromising PPE enforcement.

Our operations conform to the IMO International Safety Management (ISM) code, International Ship and Port Facility Security (ISPS) code, and MARPOL 73/78 conventions preventing pollution of marine waters. Every personnel on our team maintains explicit authority to invoke Stop Work Authority (SWA) whenever an unsafe condition arises.

8. STATUTORY & REGULATORY ALIGNMENT

NIMASA Compliance:
Registered under the Coastal and Inland Shipping (Cabotage) Act; verified STCW crew certifications and flag state inspection compliance.

Nigerian Ports Authority (NPA):
Authorized navigation, lightering, and harbor towage protocols across Apapa, Tin Can Island, Kirikiri, Onne, and Warri complexes.

NMDPRA Downstream Bunkering:
Licensed petroleum supply coordination adhering strictly to national fuel storage, transport, and bunker delivery note (BDN) rules.

IMCA Commercial Diving Safety:
Adherence to international subsea guidelines, surface-supplied air redundancy, and certified non-destructive testing procedures.
